Living Memorial[®] Program

FEATURES:

- Specifically designed for scattering in water
- Handmade from unbleached pressed cotton(biodegradable)*
- Full-color printed image
- Biodegradable bag included and recommended for use
- Bowl-shaped bottom holds cremated remains
- Floats for one to five minutes before descending into water **
- *The Reflections Scattering and Garden urns are designed to break down in water.
- The timing to break down will vary based on water conditions and temperature
- The urn must remain completely dry until it is placed in water or buried for the scattering ceremony
- Because of the delicate nature of the pressed cotton material, the urn must be handled gently to prevent rips or tears.
- Do not ship cremated remains within this product. Cremated remains should be placed in the biodegradable bag
- Floating times may vary based on water conditions

Living Memorial[®] Program

FEATURES:

- Specifically designed for scattering in water
- Handmade from unbleached pressed cotton(biodegradable)*
- Full-color printed image
- Biodegradable bag included and recommended for use
- Bowl-shaped bottom holds cremated remains
- Floats for one to five minutes before descending into water **
- *The Reflections Scattering and Garden urns are designed to break down in water.
- The timing to break down will vary based on water conditions and temperature
- The urn must remain completely dry until it is placed in water or buried for the scattering ceremony
- Because of the delicate nature of the pressed cotton material, the urn must be handled gently to prevent rips or tears.
- Do not ship cremated remains within this product. Cremated remains should be placed in the biodegradable bag
- Floating times may vary based on water conditions

Living Memorial® Program

FEATURES:

- Specifically designed for scattering in water
- Made from recycled plant materials & cellulose with water, heat, and pressure and no glue or other binding agents
- The urn must remain completely dry until it is placed in water
- Includes Bamboo Carrying Case for transport and safekeeping for treasured mementos after scattering has taken place
- Placed upright in water, after several minutes the urn will begin to dissolve from the bottom up freeing cremated remains to scatter in water
- The top portion may remain in sight for a longer period but will dissolve and sink out of sight
- The timing to break down will vary based on water conditions and temperature
- Floating times may vary based on water conditions
- Name/Date, Text, and Standard Design personalization available on bamboo case for an additional charge

Living Memorial® Program

FEATURES:

- Specifically designed for scattering in water
- Handcrafted from sustainably produced, biodegradable paper
- Because of the delicate nature of the biodegradable paper material, the urn must be handled gently to prevent rips or tears
- The urn must remain completely dry until it is placed in water or buried for the scattering ceremony
- Floats briefly in water before sinking below surface where product will biodegrade naturally
- The timing to break down will vary based on water conditions and temperature
- Biodegradable bag included and recommended for use
- Do not ship cremated remains within this product. Cremated remains should be placed in the biodegradable bag
- Floating times may vary based on water conditions
- Living Memorial[®] Program
